WHAT IS FAIRTRADE?

Fairtrade is about better prices, decent working conditions, local sustainability and fair terms of trade for farmers and workers in the developing world.

"Anyone who criticises me for talking about fair trade is a few pebbles short of a beach.

Because everyone should care about it, just like everyone should care about the environment, because we all live here."

- Chris Martin of Coldplay

The FAIRTRADE Mark is awarded to products that meet international standards set by THE FAIRTRADE FOUNDATION

an independent charity and one of 17 **International Fairtrade Labelling Organisations** operating in Europe, Japan, North America and Mexico.

The FAIRTRADE Mark guarantees that:

Farmers and producers get a fair and stable price for their products.

Farmers and plantation workers get a premium to invest in their communities and improve their lives.

There is greater respect for the environment.

There is a closer link between shoppers and producers.

Small farmers get a stronger position in world markets.

"I have been able to fix the roof of my house, there is money for food and I can buy new shoes... but the most important thing about Fairtrade is that our dignity as human beings is recovered."

- Isaias Martinez, coffee grower

There are now over **6,000 products** that carry the FAIRTRADE Mark and more than **1.9 million farmers, workers and their families** across **71 of the poorest countries** benefit from the international Fairtrade system.

An amazing **93% of shoppers recognise the FAIRTRADE Mark!**
